Dear Members and Guests,

Re: Beverage Price Rise Consideration.

Members and Guests are advised that due to several factors that have impacted the Club the Pricing of our Beverages will be increased effective from 1 June 2020.

Factors that were considered as part of this decision included (but was not limited to):

- ☐ Period since last price increase – over 12 months;
- ☐ Increases in Govt. excise since that time;
- ☐ Increased costs imposed by Breweries and Suppliers;
- ☐ Current market position and trends;
- ☐ Consideration of our relative position within Market place;
- ☐ Alternative Discounts now available to members; e.g. Social Hour discount prices will be retained; Tiering Discounts apply when you pay by points.

This change was proposed to occur prior to the enforced shutdown that was determined by the NSW Government and while it is difficult at any stage to increase prices, it is even more so under our current circumstances.

I trust that you will appreciate, the need to increase prices to offset the increases in costs and I am happy to discuss the increase with you if you wish.

Stay safe,

Alan J Crow JP
General Manager
