

## **GUILDFORD LEAGUES CLUB**

### **GENERAL MANAGER'S MESSAGE TO MEMBERS**

**AUGUST 2021**

Who would have thought, 9 weeks ago, that today ***your Club Guildford Leagues***, would still be closed and our Community would be suffering from both the personal and financial hardships related to COVID-19. We have heard that some of you have been personally impacted by the virus and our thoughts go out to you for a speedy recovery.

From all accounts it appears that it will be late September/mid-October before we can once again welcome you to our premises.

***And that's what I want to discuss with you today.***

I have been encouraging our staff to all get vaccinated as soon as possible. There is a very good chance that before staff can return to work, they will be required to have received the double dose of an approved vaccine.

The same possibility may also apply to patrons, you may be required to have received a double dose before you can attend Clubs, Pubs, Restaurants any venue where you will come into close contact with others for an extended period of time.

***your Club Guildford Leagues***, is taking every effort to ensure that when we can once again invite you back in, you will find a comfortable, safe & welcoming environment but it is also up to you to do your part to ensure that when we re-open you're ready to come back.

There are many unanswered questions that remain, and I encourage all our members to read the advice from NSW Health, talk to your Dr and follow their advice regarding your vaccination options. They are the ones that you should trust, because they know your health history and will be your best guide through these troubled times.

On behalf of our Board, Management & Staff, thanks for your ongoing support of ***your Club Guildford Leagues***, and we hope to see you soon.

Alan J Crow JP  
General Manager
